

January 2010

TorcUP Inc. now has the complete offering for Wind Turbine Erection. Both Torque and Tension can now be supplied by TorcUP!

Call TODAY for your free copy of the TorcUP Bolt Tensioning Technology Catalog for Wind Turbines.

In the near future, we will be releasing a Full Line Tensioner Industry Brochure. This will promote the balance of the "Tension" products. Unlike our "Torque Tools" the tensioner industry seems to be specific and purchased per application and some time in advance of the actual use.

From Hydraulic Torque Wrenches to Pneumatic Torque Wrenches to Hydraulic Tensioners... TorcUP HAS IT ALL!

TorcUP, located in Easton, PA is truly a company like no other. The passion to design the BEST tools in the industry means there is no room for compromise. TorcUP understands that changes in the industry require changes in tooling providing safer, more reliable designs that will GET THE JOB DONE! TorcUP is driven, growing and ready to meet your needs.
